Why aren't the steps being maintained? The steps get a lot of use, they are falling apart, the metal grate risers are coming loose and there are sharp exposed edges.

These steps bring a lot of people to our community. They should be maintained on a monthly basis.

Hello Maintenance Dept., We have 2 service requests:			
1. Please change out our 3 drinking water filters located in each yard and under the sink in the kitchen. Our records show they were last changed on 1/29/25. Per licensing, we are required to have them changed every 6 months.			
2. please check the overhead light bank all the way to the left (closest to the windows) in classroom 3. It has been stuck "ON" for the last several weeks.

Hello Maintenance,

Can we please get your assistance with checking the door to the men's restroom by the Grand Hall at the Fullerton Community Center. Door seems to be hanging to one side, making it difficult for our seniors to open the door as it becomes very heavy. Please check in with me or Joanna Sanchez at the time of service.

Thank you,

Good morning,

I would like to submit a request to replace the shower heads in the men's restroom at the tennis center. I would also like to request a door handle replacement for a shower door in the women's restroom. I have attached images of all three inquiries for reference.

For any questions or concerns, you may reach the tennis center at 714-773-5776.

Thank you,
Jacob Hodgden-Baltierra (714) 773-5775

Agenda Report

Parks and Recreation Commission

MEETING DATE: SEPTEMBER 8, 2025

TO: PARKS AND RECREATION COMMISSION

SUBMITTED BY: DAISY PEREZ, DEPUTY CITY MANAGER

PREPARED BY: CHRISTIAN HERNANDEZ, PARKS AND RECREATION MANAGER

SUBJECT: PARKS MASTER PLAN

SUMMARY

At its July 14, 2025 meeting, the Parks and Recreation Commission directed staff to return with an item for discussion on moving forward with the development of a comprehensive Parks Master Plan. The Commission emphasized the importance of establishing a long-range planning document that reflects current community needs, demographic shifts, and recreational trends, while also serving as a guide for future capital improvements, programming, and grant opportunities.

This report provides background information and seeks the Commission's recommendation to the City Council to initiate the process of issuing a Request for Proposals (RFP) for consultant services to develop a Parks Master Plan.

RECOMMENDATION

Staff recommends that the Parks and Recreation Commission recommend to the City Council that the City formally initiate the process of developing a Parks Master Plan by authorizing the release of a Request for Proposals (RFP) for consultant services.

FISCAL IMPACT

No fiscal impact at this stage. The average cost of developing a Parks Master Plan can range from \$300,000 to \$450,000. Future costs would be subject to City Council approval through the contract award process and may be funded by Park Dwelling Fees.

BACKGROUND

The City of Fullerton currently operates and maintains 53 parks, over 28 miles of trails, and a variety of community and recreation facilities. While individual capital improvement projects and park enhancements have been undertaken in recent years, the City does

not currently have an updated Parks Master Plan that reflects current community needs, demographic changes, and emerging recreational trends.

The last citywide parks and recreation planning effort was completed in 1977. Since then, population growth, evolving recreational preferences, and changes in funding availability have created a need for a fresh, data-driven planning document.

DISCUSSION

The development of a Parks Master Plan represents a significant opportunity for the City of Fullerton to take a comprehensive and forward-looking approach to parks and recreation planning. While the City has made consistent investments in maintaining and upgrading its park system, these projects have been mainly implemented on a case-by-case basis through the Capital Improvement Program, grant-funded initiatives, or in response to immediate needs. Without a unifying planning document, it is increasingly complex to prioritize projects, leverage external funding opportunities, and ensure equitable access to recreational amenities across the community.

COMMUNITY GROWTH AND CHANGING NEEDS

Fullerton has experienced significant demographic changes over the past decade, including shifts in age distribution, cultural diversity, and recreational preferences. Families are seeking multipurpose fields and inclusive playgrounds, while older residents are requesting more passive recreation spaces such as walking loops and fitness stations. In addition, emerging trends such as pickleball, dog parks, and environmental sustainability are reshaping how cities design and program their parks. A Master Plan would help Fullerton anticipate these trends and respond proactively rather than reactively.

EQUITY AND ACCESSIBILITY

Parks and recreation play a critical role in quality of life, but access is not always distributed evenly throughout the community. Some neighborhoods enjoy proximity to parks with a wide range of amenities, while others lack walkable green space. Additionally, the City must continue to address ADA accessibility requirements to ensure that all residents can safely enjoy its facilities. The Master Plan process would incorporate GIS mapping and gap analyses to identify underserved areas, helping guide future investments where they are needed most.

COMMUNITY ENGAGEMENT

The planning process itself provides significant value by engaging residents, stakeholders, and user groups in shaping the future of Fullerton's parks system. By conducting workshops, surveys, and targeted outreach, the City can ensure that all voices, particularly those of youth, seniors, and underrepresented communities, are included in decision-making. This process not only builds trust and transparency but also creates a stronger sense of ownership and stewardship among residents.

ALIGNMENT WITH BROADER CITY STRATEGIC GOALS

A Parks Master Plan would align directly with the City's General Plan and other strategic initiatives, providing consistency across planning efforts. It would also serve as a valuable tool for interdepartmental collaboration, particularly with Public Works, Community Development, and local school districts, ensuring that land use, transportation, and open space planning are coordinated.

FUNDING AND COMPETITIVENESS

Many state and federal grant programs, including those offered by the California Department of Parks and Recreation and the Land and Water Conservation Fund, strongly encourage or require jurisdictions to have an adopted Parks Master Plan to qualify for funding. Without such a plan, the City is at a disadvantage when competing for limited dollars. Having an adopted plan in place increases Fullerton's competitiveness and strengthens applications by demonstrating community input and strategic prioritization.

LONG-TERM BENEFITS

Ultimately, the Parks Master Plan would serve as a "roadmap" for the next 10–15 years, guiding both near-term capital investments and long-term visioning. The plan would establish a framework for budgeting, phasing, and maintenance, helping to maximize limited resources while extending the life of existing assets. By creating a prioritized and costed implementation strategy, the City will be able to respond more effectively to opportunities and challenges as they arise.

NEXT STEPS

In 2021, City staff presented to the City Council a Parks and Recreation Master Plan contract to be awarded to RJM Design Group; however, the contract was not approved, and the City did not move forward with the development of a Parks Master Plan at that time.

If the Commission recommends moving forward and the City Council approves, the next steps would include releasing an RFP to solicit proposals from qualified consulting firms. The results of the RFP process will be presented to the City Council for formal contract award. Following contract approval, the consultant will work with staff, the Commission, and the community to prepare a comprehensive Parks Master Plan for adoption by the City Council.

Staff is ultimately seeking support from both the Commission and City Council to ensure that the City is committed to seeing this process move forward.

SUBJECT: UNION PACIFIC PARK PROJECT UPDATE

SUMMARY

The Parks and Recreation Department is advancing the construction of Union Pacific Park, located at 400 W. Truslow Avenue. Planned improvements include bike and pedestrian trails, pickleball and basketball courts, a picnic area, and a community garden. Construction is underway, with the playground installation scheduled for mid-September and the park anticipated to open before the end of the year.

RECOMMENDATION

Receive and File.

FISCAL IMPACT

The Union Pacific Park improvement project will be funded by a combination of funding: Community Development Block Grant (CDBG), a Kaboom grant and Park Dwelling funds. All necessary budget appropriations have been approved by City Council. No General Funds resources are required for this project.

BACKGROUND

Union Pacific Park, a 1.2-acre site originally opened in 2004, has been closed for over 20 years due to site challenges and public safety concerns. Recognizing the need to restore quality recreational opportunities in this neighborhood, the City secured Community Development Block Grant (CDBG) funds in 2023, and partnered with Kaboom and funder Pacific Dental Services in 2025 to fund the reopening of the park.

To ensure community priorities were incorporated, the City formed the Union Pacific Ad Hoc Committee, comprised of local residents, which began meeting at the Fullerton

Community Center in February 2023. A citywide survey was also conducted during the summer of 2023 to gather additional input from residents. Together, the survey and committee feedback guided the development of the concept plan, which emphasizes a mix of amenities to support recreation, safety, and neighborhood pride. The final design was reviewed and approved by the Ad Hoc Committee, the Parks and Recreation Commission, and ultimately by the Fullerton City Council.

DISCUSSION

The Union Pacific Park renovation project has entered the construction phase. In August 2025, the playground pit was completed in preparation for the new play structure. The playground itself will be installed on September 13, 2025, through a community-led “Build Day” organized by Kaboom and the City. Construction of the remaining park improvements is expected to begin in late September 2025, with the park anticipated to open before the end of the year.

The renovated park will feature a wide variety of amenities designed to serve multiple age groups and interests. The bike and pedestrian trails will create safe, accessible connections for residents while encouraging active transportation. Pickleball and basketball courts will provide much-needed recreational outlets, supporting both youth engagement and healthy lifestyles for adults. Picnic areas will offer families and friends a welcoming place to gather, while the future community garden will foster neighborhood connections and provide opportunities for intergenerational learning. The new playground, funded through Kaboom, will serve as a centerpiece for children’s play and creativity.

These improvements are expected to have a transformative impact on the surrounding neighborhood. By activating the space with diverse programming and amenities, Union Pacific Park will help create a safer environment where residents feel a sense of ownership and pride. The variety of uses will attract people throughout the day, reducing opportunities for negative activity while promoting community building, wellness, and long-term sustainability of the park.

DISCUSSION

As part of the Union Pacific Park renovation, the inclusion of a community garden presents an opportunity to engage residents in meaningful, hands-on activities that promote healthy living, sustainability, and neighborhood pride. To guide decision-making, staff has researched models used by other community gardens:

- Individual Plots: Residents can rent or reserve small garden plots to grow their own vegetables, fruits, or flowers. This option fosters personal investment and responsibility.
 - The eligibility requirement would include over the age of 18 and be a Fullerton resident. The annual fee would be nominal and would help subsidize the cost of water and general garden maintenance.
 - The plots would be assigned by garden staff either in a first come first serve basis or at random selection and will not be transferable.

- Garden Plot maintenance will be the responsibility of each individual. There will be community work days for the entire garden.
 - The hours of operation will be the same as the park hours.
- Community Based Model: Instead of individual plots, residents collectively maintain larger shared beds, working together on planting, maintenance, and harvest. This option strengthens collaboration and reduces the need for assigned management.
 - The eligibility requirement would include any one over the age of 18. There will not be a fee to participate however all new gardeners will be required to attend an orientation.
 - An organization or group of individuals will be responsible for the overall well being of the garden and work with City staff for maintenance and all gardening related items.
 - All the produce would be available to the community and gardeners during harvest. The success of the garden is responsibility of the entire community.
- Hybrid Models: A combination of individual plots, shared spaces, and educational areas to provide flexibility and meet varied community needs.

These options highlight a range of opportunities for residents to engage with and benefit from the Union Pacific Park Community Garden. Input from the Parks and Recreation Commission will be essential in determining which features best meet local interests and needs, and staff looks forward to discussing these possibilities to guide the final plan.

SUBJECT: LIONS FIELD TURF REPLACEMENT PROJECT

SUMMARY

Staff is seeking the Parks and Recreation Commission's recommendation to the City Council to award a contract to KYA Group for the Lions Field Turf Replacement Project and to support inclusion of additional project amenities.

RECOMMENDED ACTION

Staff recommends that the Parks and Recreation Commission recommend to the City Council approval of the following:

1. Award a contract to KYA Group in the amount of \$1,499,699 for the Lions Field Turf Replacement Project.
2. Incorporate, subject to funding availability and construction schedule alignment, the following additional amenities into the project scope:
 - Dugout benches (16)
 - Field Goal Posts (2)
 - Scoreboards (5)
 - Conference room furniture
 - Football field bleacher shade structure

FISCAL IMPACT

The Fiscal Year 2025–26 Adopted Capital Improvement Program (CIP) Budget includes \$2,000,000 in Park Dwelling Funds allocated for this project. The proposed expenditures, including contingency and additional amenities, total \$2,000,000.

BACKGROUND

Lions Field is located at 1440 N. Brea Blvd., adjacent to Hillcrest Park. It is the City's primary synthetic field, serving thousands of youths and adult athletes annually. Lions Field is one of Fullerton's most heavily used sports facilities, supporting youth leagues,

high school athletics, adult sports, and community programming. The existing synthetic turf, installed in 2012, has exceeded its recommended service life of 8–10 years and is showing significant wear. Replacement is necessary to maintain safety standards, extend facility usability, and preserve Lions Field as a premier athletic venue.

The proposed project will remove the current turf system, inspect the sub-base, and install a modern synthetic turf surface with improved safety technology and durability. In addition, the project would include the replacement of amenities, such as scoreboards and dugout benches, as well as the purchase of two new field goal posts. The total cost of \$2,000,000 includes design, demolition, installation, supplies, and contingency.

DISCUSSION

Lions Field, located at 1440 N. Brea Blvd. adjacent to Hillcrest Park, serves thousands of youth and adult athletes annually and is the City's only synthetic field. The field supports a wide range of sports, including football, soccer, and softball, and is used approximately 2,000 to 2,500 hours per year. This high-intensity level of demand has accelerated wear on the turf system and has required periodic patchwork to maintain playability. The existing synthetic turf, installed in 2012, has now provided thirteen years of service, exceeding the industry's recommended service life of eight to ten years. Replacement is necessary to maintain safety standards, extend the usability of the facility, and preserve its standing as a premier community athletic venue.

The project scope would include the following:

- The safe removal of the existing turf.
- Regrading and inspection of the base layer to ensure long-term field performance.
- Installation of a next-generation synthetic turf with dual-fiber blades designed for durability and natural appearance.
- Selection of cork, coated sand, or organic-based infill to reduce surface heat and environmental impact.
- Permanent inlaid striping for football, soccer, and softball, reducing the need for temporary paints and additional maintenance.
- Contractor-provided warranty and staff training to extend turf lifespan.

Staff initiated a competitive bidding process using the California Multiple Award Schedules (CMAS) procurement framework to evaluate proposals from qualified synthetic turf vendors. Three firms submitted proposals, with cost ranges from approximately \$1.45 million to \$1.63 million, depending on scope, warranty coverage, and product specifications. The KYA Group proposal totaled \$1,499,699 and included Tencate turf with rubber infill and GeoCool technology, with a ten-year warranty. Shaw submitted a proposal in the amount of \$1,510,724 for Game On 2.0 turf with Geofill and an eight-year warranty. FieldTurf submitted a proposal in the amount of \$1,629,839.84 for its Elite Vertex Prime and Triple Threat Natural systems with CoolPlay infill and an eight-year warranty. After review of product specifications, warranty terms, long-term value, and overall safety standards, staff determined that the KYA Group proposal provides the best combination of quality, durability, and fiscal responsibility.

LIONS FIELD TURF REPLACEMENT PROJECT

September 8, 2025 - Page 3

Staff solicited and reviewed multiple vendor proposals via the California Multiple Award Schedules database. The proposals ranged between \$1.45 million \$1.7 million, depending on the scope, warranty, and materials offered.

Vendor	Base Proposal	Key Inclusions	Notes
KYA Group	\$1,499,699.00	Tencate with rubber infill and GeoCool	10-year warranty
Shaw	\$1,510,724.00	Game On 2.0, Geofill	8-year warranty.
Field Turf	\$1,629,839.84	FieldTurf Elite Vertex Prime and Triple Threat Natural with CoolPlay infill.	8-year warranty

In addition to turf replacement, staff reviewed cooperative agreement pricing for several proposed amenities designed to enhance the overall quality of Lions Field. The proposed costs for these elements are as follows: sixteen dugout benches for \$16,000, five scoreboards for \$52,000, conference room furniture for \$8,300, two field goal posts for \$13,480, and a football field bleacher shade structure for \$215,000. The inclusion of these amenities would improve functionality and user experience. However, installation of the shade structure is dependent upon alignment with the turf replacement schedule, as heavy machinery required for its installation could damage the new turf surface if installed afterward. For this reason, staff does not recommend proceeding with the shade structure unless its installation can occur concurrently with the overall project timeline.

The project schedule is particularly critical given the high community demand for Lions Field. Construction is tentatively scheduled to begin in mid-November 2025, with anticipated completion in January 2026. This timeline is designed to minimize disruption to partner leagues, high school athletics, and community programming. Staff will coordinate with all user groups to provide advance notice of impacts and ensure timely communication throughout the project.

Vendor	Amenity	Pricing
BSN Sports	Dugout Benches (16)	\$16,000
BSN Sports	Field Goal Posts (2)	\$13,480
BSN Sports	Scoreboards (5)	\$52,000
Consolidated Office	Lions Office	\$14,090.28
USA Shade	Football Field Bleacher Shade Structure	\$215,000
	Total	\$310,570.28

LIONS FIELD TURF REPLACEMENT PROJECT

September 8, 2025 - Page 4

If the Parks and Recreation Commission recommends moving forward, the item will be presented to City Council for approval of the KYA Group contract and the associated project scope. Upon Council approval, staff will finalize the contract, coordinate construction scheduling, perform outreach with user groups, and oversee implementation of the project to ensure timely delivery within budget and scope.

The tentative construction start date is mid-November, with an anticipated project completion in January 2026. Staff will perform outreach with impacted user groups and notify them of upcoming project construction and potential impacts.

the federal or state level, on products included in this proposal after the proposal date shall be the sole responsibility of the Customer and will result in an adjustment to the proposed price accordingly. FieldTurf USA, Inc. reserves the right to modify pricing to reflect such additional costs, and the Customer agrees to bear any such increases.

The price is valid for a period of 90 days. The price is subject to increase if affected by an increase in raw materials, freight, or other manufacturing costs, a tax increase, new taxes, levies or any new legally binding imposition affecting the transaction. The parties recognize that the effects of global economic instability are currently unpredictable and could lead to limitations in labor availability and delays in the supply and delivery of materials, equipment or products. In addition, as these contingencies have not been factored into this proposal; materials, equipment and/or products to be used in performing the work may become subject to a price increase. Accordingly, it is acknowledged that the seller/FieldTurf shall (a) not be subject to any damages for any delay due to events beyond its control and, (b) be allowed an equitable adjustment of the time and/or of the price of this proposal or any contractual document resulting therefrom. FieldTurf shall endeavor to notify you as soon as possible of any such events and/or contingencies. Please note that the seller/FieldTurf shall use its best efforts to ensure that it fulfills its commitments and will strive to minimize any negative impacts as they may arise. Thank you for your kind understanding.

CONDITIONS

Notwithstanding any other document or agreement entered into by FieldTurf in connection with the supply and installation only of its product pursuant to the present bid proposal, the following shall apply:

- a) This bid proposal and its acceptance is subject to strikes, accidents, delays beyond our control and *force majeure*.
- b) FieldTurf's preferred payment terms are as follows: (i) 50% of the Price upon Customer's execution of contract; (ii) 40% of the Price upon shipment of materials from FieldTurf's manufacturing facility; and (iii) Remaining balance of ten percent (10%) upon substantial completion of the field, which shall be achieved when Customer is able to use the field for its intended purpose, even if punchlist items remain and the Certificate of Completion has not been executed by Customer.
- c) Accounts overdue beyond 30 days of invoice date will be charged at an interest rate of 10% per annum.
- d) FieldTurf requires a minimum of 21 days after receiving a fully executed contract or purchase order and final approvals on shop drawings to manufacture, coordinate delivery and schedule arrival of installation crew. Under typical field size and scenario, FieldTurf further requires a minimum of 28 days per field to install the Product subject to weather and *force majeure*.
- e) FieldTurf requires a suitable staging area. Staging area must be square footage of field x 0.12, have a minimum access of 15 feet wide by 15 feet high, and, no more than 100 ft from the site. A 25 foot wide by 25 foot long hard or paved clean surface area located within 50 feet of the playing surface shall be provided for purposes of proper mixing of infill material. Access to any field will include suitable bridging over curbs from the staging area to permit suitable access to the field by low clearance vehicles. Staging area surface shall be suitable for passage with motor vehicles used to transport materials to the site and/or staging area. FieldTurf shall not be liable for any damages to the staging area or its surface unless such damages are caused by FieldTurf's intentional misconduct or negligence.
- f) This proposal is based on a single mobilization. If the site is not ready and additional mobilizations are necessary, additional charges will apply.
- g) Upon substantial completion of FieldTurf's obligations, the Customer shall sign FieldTurf's Certificate of Completion in the form currently in force; to accomplish this purpose, the Customer will ensure that an authorized representative is present at the walk-through to determine substantial completion and acceptance of the field, which may include a list of punch list items.
- h) FieldTurf shall not be a party to any penalty clauses and/or liquidated damages provisions.
- i) FieldTurf shall be entitled to recover all costs and expenses, including attorney fees, associated with collection procedures in the event that FieldTurf pursues collection of payment of any past due invoice.
- j) All colors are to be chosen from FieldTurf's standard colors.
