Question 7

I have lived in this City for over 30 years. Big businesses have left, we have a downtown that is no longer safe, we have more residents and less public safety personnel. Public safety employees are leaving for other cities who compensate their employees fairly. I support raising taxes - property and sales. City Council members need to do what is best for the city and not their political careers. Do what is right for the right reason! Stop the embarrassing bickering and stop taking care of your friends downtown!

2. Street Paving
3. Code Enforcement

Question 7

I think there's a lot of great vision but misses too. Wilshire has all those big repairs and roundabouts but the streets around them are getting worse and dangerous. Parking enforcement only cares when there's a street sweeper otherwise they aren't really doing well. Small things that just need attention could do a lot to help build moral around the future Fullerton.

Question 2

Bring back the suburban lifestyle that make Fullerton a great place to live, work, and raise a family. (Of course, that means remove the overflow of bars in downtown area which are of no benefit to the community). Too many high density structures are destructing the Fullerton area. Our infrastructure (roads, water, schools, etc.) cannot accommodate them. Work to bring back some of the retail business that brought the community into the downtown area to shop, dine, and enjoy the charm and character that made Fullerton such a special place in which to live.

Question 3

Fullerton used to be called the Tree City. Now all it is known for is cheap drinks, poor food, and too many drunks for our police force to control.

It is difficult to understand why and how the city council is allowed to ignore input from the citizens of Fullerton. The council disrespects many of the people who care enough about the city to show up and speak their concerns to the council ... and are met with complete disrespect (eye-rolling, paper shuffling, totally ignoring the person speaking, etc). Wonder if their children would think if they saw the attitude their parents/grandparents, etc. showed.

Question 7

With respect to Sewer Maintenance, please appoint a community liaison to assist citizens who have sewer issues. I had a big one this year, and when I anted up all the \$\$ to dig up the alley, the city's main was broken. You had the resources all along to help me, but you didn't. I paid \$5K in repairs. Regarding code enforcement and plan check, the city is becoming too dense. Stop the apartment complexes along Harbor, Commonwealth and downtown.

Question 7

As a 40-year homeowner, in the effort to revitalize the downtown area, I feel there has been too much of an influx of bars in an attempt to attract a younger crowd. Recent tragedies have proven that to be a mistake and something needs to be done to return it to a safer and enjoyable environment for all of us.

Question 7

Street re-paving NEEDS to be a priority. The streets are collectively awful to drive on and it is an embarrassment to the people of Fullerton that our streets are so incredibly horrendous. Patching does not last and repairs only happen when someone requests a repair. Full street re-paving needs to become a priority. Cars become damaged and the additional long-term, negative side effects of bad streets will eventually catch up with the city and become a major problem for all residents.

Question 2

Fix the dilapidated city streets. Stop nickle and diming residents to use city parks, they should be free for residents of Fullerton. After all we pay for them though our taxes. The city should support more free events like the fishing derby for our youth. Nonprofit groups used to provide free shirts, lunch and an icecream to participants of the fishing derby. I understand city parks and recreation wanted to make money from the event, so they told the nonprofits they couldn't give away free shirts and lunch. Shame on parks and recreation for depriving low income families.

Question 2

The organization's reason for existence is to provide a city that their citizens can be proud of, a City Hall that works for the people, not one to be used as a stepping stone to another position, a police force that listens to and responds to the public, a maintenance department that keeps our parks, streets, city buildings, and public areas clean and safe. I have lived in Fullerton for 53 years and basically this has been true, but lately our streets are worse than driving thru Tijuana, our traffic is horrendous and yet we keep building condos. Something has to change soon or Fullerton will become a city that was.

Question 3

As I stated above, there is no future unless people get their head out of the clouds. (Not the ending I envisioned.)

Question 1

- I am a Fullerton Resident
- I own a home in Fullerton
- I work in the City of Fullerton
- I am a patron of Fullerton Businesses

Question 2

The City of Fullerton has a mission to look to the future without disdaining the past. The City is dedicated to bringing a safe, supportive environment for its residents both old and new, including an historic downtown, family-friendly neighborhoods and schools, and varied, quality recreational opportunities. The City values the desires of its diverse residents, respects the importance of the quality of life of its employees, and hopes to offer a safe and inviting environment to its visitors. [I have lived and worked in Fullerton since 1975. I applaud the changes that have protected and renewed, but deplore those that have destroyed — for examples of cities that have completely gone the latter way, see Santa Ana, Anaheim, and Brea.]

Question 3

The Fullerton Strategic Planning vision is to protect and preserve the historic charm and quality of life the City of Fullerton has offered by advocating and supporting endeavors that will renovate and renew rather than demolish and destroy, despite the revenue those harmful changes might bring. Preserving historic structures and neighborhoods is more important than adding cookie cutter condos and apartment blocks and bars, despite the previous years' misguided vision to the contrary. Preserving and opening recreational public access to Coyote Hills, as the Fullerton voters desire, is more important than any immediate political, personal, or financial gains that a select few might achieve. The City will also look to redistributing the voting areas to give the downtown neighborhoods a united voice in their election of their city council representative. [I live near but not in those neighborhoods; however I worked there for several years in the late 1970's and in the 2000's, including late hours. I agree with their many complaints that have been largely dismissed by the city council.]

Question 4

Fiscal and Organizational Stability: Strongly Agree

Public Safety: Strongly Agree

Infrastructure and City Assets: Strongly Agree

Question 5

Fiscal and Organizational Stability: somewhat effective

Public Safety: somewhat effective

Infrastructure and City Assets: somewhat effective

Question 6

1. Water Main Maintenance and Repair
2. Sewer Maintenance and Repair
3. Asphalt Repair (Potholes)
4. Traffic Signals and Signage
5. Drinking Water Quality
6. Employee Relations/Collective Bargaining
7. Homelessness
8. Library Services

Question 7

My first five priorities are safety issues for everyone. Please get rid of the blinking yellow traffic lights. I was in an accident because of them. I know someone who was killed because of them. Please assure the safety of our water by cleaning any contaminated aquifers such as the one under Malvern and Bastanchury. I support the libraries including the Hunt branch. I support unions and their members. I support compassionate treatment and services for the homeless. Thank you for your time in reading this.

Question 7

The enforcement of basic laws (overnight parking, red light running, etc) is missing in Fullerton. As a result, people have lost respect for each other and think they can do whatever they want. Every time I get a green light, someone runs the red light. Despite repeated calls, nobody comes to police people who violate the overnight parking rule. We need a police force that will enforce the laws of the city and restore a sense of safety.

- I am a Fullerton Resident
- I own a home in Fullerton
- I am a patron of Fullerton Businesses

Question 2

To fix and maintain roads, attract new businesses, and to effectively deal with homeless without impacting existing residents.

Question 3

The city needs to attract new businesses to refill it's coffers to fix and maintain infrastructure. In regards to homelessness, if one is breaking the law, enforce it. Don't compromise resident safety and put drug users and know mentally ill people back on the street. Enforce the laws with the churches that are only supposed to have cars parked, but have homeless camps set up instead. Work with the county to pilot SB 1045 to force conservatorship for the most vulnerable homeless who've lost the ability to care for themselves. Build hospitals to house mentally ill homeless (not permanent supportive housing) Giving someone somewhere permanent to live on tax payers dime does nothing to motivate or help them in the future, especially if they are allowed to do drugs. I am in favor of affordable housing, but we have enough housing in Fullerton. So much so that there is traffic everywhere. Finally, I feel like our voices aren't being heard. I know we are filling out this survey - but most council members have their minds made up on most issues. Please hear our voices and make us proud of our city again.

Question 7

The City wears a lot of hats, which is why there are many departments. Many of these items must be prioritized in parallel in order for the city to run successfully. For instance, you cannot prioritize library services without also focusing on recruitment and retention of excellent employees, which includes a competitive and sustainable benefits package. The library cannot succeed either without effective maintenance of the existing building and capital planning for the future needs of the library. Certainly, I feel that an effective city needs effective systems, which, like code enforcement, involve multiple factors. As an exercise, I think this is very helpful to illustrate to stakeholders the many priorities the city must juggle within its budget.

The mission of the city of Fullerton shall be to both lead and to serve its citizenry in a manner that fosters opportunity and quality of life, to endeavor to manage city assets in an honest effort to enact the most civic good, and create the least collective harm, and to always look forward.

Question 3

Though this vision is "short term" it is likely to take half a century to realize. This City, above all else, must find an economic equilibrium between serving it's citizens, and servicing it's debt. My vision would involve the respectful extrication from commitments to dinosaurs like The Hunt Library, The Fox Theatre, et al, in favor of streets, fire, police and schools.

Question 7

While a vibrant Downtown is helpful to the local economy, the City needs to remember that not all of its residents are fans of the bars & nightlife. Walking past puke, blood and urine on a Saturday morning on your way to brunch is no fun. Fullerton should be more than a magnet for drunks and college-age partiers. Lets remember the families and others who want more from their hometown.

Question 7

As a long-time city employee, I have seen our City organization stretched to it's limit to provide quality service to our residents and businesses. The needs of our community continue to expand, as do the duties and regulatory requirements city staff are tasked with, yet our staffing levels are barely keeping up with the pace of people leaving. It saddens me to see good, seasoned employees and talented new hires leaving to find work elsewhere in Orange County at agencies where pay and benefits are keeping up better with the cost of living. A great deal of expertise and skill is leaving Fullerton with them. Newly-hired employees often leave us quickly after they learn the skills they need to be hired by more competitive public sector agencies. I hope council will realize that the greatest asset the city has is the dedicated, skilled staff who care about the level of service they can provide to the residents and businesses.

Question 1

- I am a Fullerton Resident
- I own a business in Fullerton
- I own a home in Fullerton
- I work in the City of Fullerton
- I am a patron of Fullerton Businesses

Question 2

Please, please, please do more to protect our residents. We need to do more for the homeless people. My young daughter opened up our front door to find a homeless man sleeping on our front stoop. This is not OK. Especially when I call FPD for help only to be told, "I'm sorry ma'am, but they do that. We can't come out there and ask them to leave." Wow. I'm also tired of walking around used needles in the park. Children are supposed to be able to play here!

Question 3

I just want to see the streets of Fullerton clean and safe.

Question 3

Would love to see more shops in downtown instead of so many food places. I think the shops would encourage people to come downtown and not only shop but eat and drink at the restaurants and bars we have. Just having used clothing shops does not really give the majority of people a reason to come an visit.

The other thing that I see as a negative to Fullerton is allowing building without any regard for greenscapes. The one in mind is the apartments built on Harbor next to Costco. It shows no regard for the City that is trying to uplift its citizens.

Question 2

Enhance the quality of life; emphasize those institutions, events and occasions that build community and inclusion. Take advantage of the special or unique resources that Fullerton has: educational institutions, important buildings (e.g. Hunt), the arts community.

Writing a mission and vision statement at this stage is premature. And while I have been involved in a number of these exercises most of them, if not all of them, made very little difference.

Question 3

A city with increased community; a city with outstanding libraries, entertainment venues, plazas and other places for the Community to gather. A city with a sense of being an important cultural, educational and arts center. More emphasis on those aspects that emphasize

community and quality of life and not just public safety (although that is essential for a good quality of life.

Question 7

Backyard burning and second hand smoke in neighborhoods is a frequent problem for the air quality in our yards and homes. Health problems caused by second hand smoke has been in the news as a major issue now. Currently, Fullerton doesn't have any laws to control smoke but it's time to create city laws and ordinances to control this problem. The EPA has 'No Burn Days' in the winter but that doesn't help us in the Spring, Summer, and Fall when our windows are open and we want to spend time in our yards.

Question 7

The city has a criminal/homeless crisis. Fullerton residents are having to deal with constant theft of property. We also have to see people sleeping in public areas, using drugs, talking to themselves, begging for money, and even being nude/defecating & urinating in public. These people either need drug rehab/jail or a mental facility. Whatever is being done now is not working. I have been a fullerton resident for 40 years and the problem has exploded. Co-workers day that they do not want to come to fullerton due to the homeless/criminal problem

- I am a Fullerton Resident

Community Stakeholder Survey - Final Results

What are your priorities for the City of Fullerton?

- I own a home in Fullerton
- I work in the City of Fullerton
- I am a patron of Fullerton Businesses

Question 2

The mission of the City of Fullerton is to provide a safe and clean place to live, work, and play, making decisions that improve the quality of life of its residents and visitors. Decisions are made with the future in mind with fiscal responsibility, knowing that decisions made today greatly affect the future of our city.

Question 3

Fullerton once again becomes a destination for businesses. Roads are paved and it is a place where people are proud to say they live and work. The city works with honesty and integrity. Traveling from place to place within the city is easy with paved streets and appropriate parking. The tax base is generated from businesses more than building high density dwellings. (Residents should not be questioning whether the planning department and city hall are paid off to approve developments. High density causes future problems.) Projects have been approved that should not have been because there is not adequate parking. I do not know one person living in a place with only one car, and few have only two. People have visitors needing parking... and plenty more than the recent developments have allowed. I am far less than enamored with decisions made in the last ten years and would love to make those making the decisions to build, live in the dwellings they approved.)

Question 7

The developments that have been approved are very short sighted, and high density brings in future problems. When there are no sidewalks in a neighborhood and the streets are unsafe to walk on because the pavement is so uneven, it is a lawsuit waiting to happen. I have fallen twice in recent months trying to walk in my own neighborhood. My neighbors are giving up on anything improving in Fullerton and moving to Yorba Linda. I am so sad to see Fullerton go downhill so quickly in the past decade. The city's appearance and roads makes a difference as to what kinds of businesses "move in" and which businesses leave.

Decisions are made with the future in mind with honesty and integrity realizing that today's decisions affect future quality of life.

Question 3

Fullerton will once again become a place people will want to come to live, work, shop, and hike. Businesses will thrive and companies will look to Fullerton as a relocation destination. High density building will be minimal, as new problems develop with high density. It will be easy to travel from

location to location on paved streets without bumps and potholes, and parking will not be an issue. Residents trust that the planning department and city council have integrity and value the future in all decisions made regarding safety, economics, and quality of life.

- I am a Fullerton Resident
- I own a business in Fullerton
- I own a home in Fullerton
- I rent a commercial property in Fullerton
- I am a patron of Fullerton Businesses

Question 2

The City of Fullerton's priority should be fixing our streets. Public Works says there's no money. Letting the streets get to this level of disrepair is so incredibly sad, but, more importantly, very dangerous.

Doing nothing for street repair is not the answer. The City needs to consider additional and limited taxes to fix our streets. With over 250 miles of roads to pave, we must consider buying our own equipment, hiring personnel, and financing this equipment over a couple of decades.

Question 3

Where in this mission statement is there any mention of streets and infrastructure? We need highways replaced, not potholes fixed!

Question 7

we are about to see a major change in how our local economy works and no one is preparing for it, with all of the problems the local bars contribute

they are about to experience a major downturn in business that they are unaware of due to societal changes and the legalization of pot. That being said those problems will diminish as their businesses do and will bring new challenges, why are we investing in public and paid parking when the entire paradigm of transportation and car ownership is going to shift dramatically to automated ride services in the next 10 years? you are focusing on the feelings of the city and not the business of the city... change that!

Question 2

Do not let the homeless take over Fullerton. Give them the bums rush. Make it illegal to loiter, camp or lay on green belts or sidewalks. If there is a bed available in a shelter, then drive them to it or drive them to jail for 30 days. I'd rather pay for this than having to avoid walking down a public street I pay for to have to step over a bum. Also make it illegal to pan handle on corners or freeway off ramps. They use the handout to buy drugs and they litter when they leave. These people can find work if they wanted to but we make it too easy for them to exist by doing nothing. We need to take back our public areas so they are used by the tax payers and not the street drug addicts etc.

Question 7

I believe the city needs to encourage Cal State Fullerton to give back in the community in which they rely so heavily on. Hosting this university is a blessing and curse. It drains our city resources and has turned our downtown into an undesirable place. The city council needs to focus on responsible growth and encouraging experienced people to run for office. I love this city but it is very disappointing to see who leads our city.

Question 7

, it would be great if these funds can be used more for an eviction prevention city program since not that many residents solicit money for Mobile Home Repair Loans, for example. Can an eviction prevention program be added during the next time that the city submits a request for FY 2020-21 HUDD funds? It's my wishful thinking and a suggestion to combat the risk of becoming homeless. The current under-utilized city programs would benefit from better advertisement. My suggestions are actions like emails to all mobile park property managers/owners in the city, include a note and/or small flyer insert with the Water Bill and place an ad in the Fullerton Connect booklet. Posting information on the City Website would be great, as it is currently not posted.

Question 7

Yes Homelessness should only be a priority in terms of enforcing against their loitering, nuisance and aggressive panhandling, and public camping. The homeless should not take priority over residents and have "rights" to do what residents are not allowed to do. In your eyes and in your actions, the homeless are a priority over the safety and rights of 40 year residents. It's wrong, and you are enabling.

Question 7

The priorities are based upon Maslow's Hierarchy of Needs. Thus water, food, sanitation, safety and shelter are first. Some more sophisticated priorities involve maintaining supply chain (i.e. Traffic Signage/Signals, Road Repair and Traffic Law Enforcement). After that the higher order (1st World Problem issues) I don't care so much about. I do want Fullerton to get the 3rd World Problem Issues/1800s era issues addressed correctly first. We currently have severe issues with addressing the 3rd world problems/1800s era issues.

Question 7

There seems to be a lot of overlap between some of the items. Also, I know there are items in the list that are items you must spend on (like hiring/recruitment) so I am not bothering to even prioritize those, but please understand that just because spending must occur, it should be done reasonably. As a resident it appears like things I want to occur (like paving roads) are unable to occur because spending on other items is too high. Like you have to invest in your "business" of running the city, but the priority should still be on services for the community and less on back-office. Also, I agree with the priority policy statements but it really seems like the third one regarding infrastructure isn't supported as much as it should be. The roads are horrendous and an embarrassment in much of the city. The parks are far behind the quality of many surrounding cities. There are many areas of the city where I have never seen a patrolling police officer, or I've called the police to report an accident blocking traffic only to be told they don't dispatch for that. I also have looked on the website to try to identify who my city council rep was and was unable to find it — that should be something extremely easy to find! I emailed the city planner to request this info — received nothing. I know people are busy but it seems the focus is on the wrong things. Please don't just identify the priority policy statements — please take action on them. Thank you for the opportunity to prove this feedback.

The city should work with the Fire Department to establish an ambulance transport program. The revenue created should be reinvested in the department to improve employee compensation which would solve the retention problem. Members aren't leaving for any other reason than money. They can work for a neighboring department with better city support and significantly higher compensation. A 25 percent difference in pay is hard to ignore for those with families to support.

Question 7

Lack of appropriate maintenance of Fullerton roads, sewer systems, water systems have left the current council and taxpayers far behind. Urgent action is needed, beginning with a frank community discussion, including the need for more revenue if necessary, to prevent severe erosion of property values. Hard questions also need to be asked regarding public safety budgets, use of overtime, and appropriate responders to heart attacks with an eye to reducing that very large portion of the city budget.

Question 7

The City has not made employees a priority by giving adequate salary increases over the last decade while asking employees to pay more for medical insurance. Because of this morale has become extremely low and turnover is huge. Most employees feel overworked and not appreciated. The workplace environment is not the same as it was a decade ago. Thus services will begin to suffer if they have not already.

Question 7

The city is in a huge disarray and quickly going downhill. The city needs to take a hard look at the amount of employees in the fire, police, parks and rec (really all) the departments and the HUGE amount of employees exiting and going to neighboring cities where they are paid more, with better benefits or opportunities for growth. The amount of money spent in the hiring and onboarding process is expensive, only to have them leave a few short years later. Retention is far less expensive. Also, I know multiple employees that have left, without HR conducting an exit interview like they are supposed to. One employee was actually discouraged from leaving exit comments. As a business owner this infuriates me, as how else are you supposed to get a real grasp on how your employees view the city and the position??

Question 7

Ideally business brings revenue, with it comes capital. Using that capital will attract more businesses which in turn attracts more residents. The city needs to address the problem of how we "look" when coming into our beloved city. Most people see the city through the lenses of their vehicles windscreen. We see streets the way they are paved, hardscape clean and graffiti free, landscape the way it's manicured and general cleanliness as the dress code for the city. Have you actually looked at the city's dress code lately? It looks, tattered, frayed and in general distress. Think of "dress code" as a job interview where you are looking your best for to get the job, this job being able to attract more business...

Question 7

Employees make the "Priority Policy Statements" happen. You cannot implement the goals and standards therein without well-trained, supported and valued employees (from Public Safety to Maintenance Services and everyone in between) to execute them. It is well noted among City of Fullerton employees what the expectation of service is and yet "you get what you pay for" doesn't seem to present itself as a thought when it comes to those employees expected to provide it. City of Fullerton is fast becoming just the first stop, learning stepping stone in an employee's public agency career path.
