Museum Center's US Flag, Flag at City Hall, Flags at Police Station. Eric would like the flags at the Museum and Police Department replaced. The resident also has a concern regarding the flags staying up in the evening/night. Do we have lights at the locations she mentioned below? Dear Mr. Levitt, Council Members Charles, Zahra, Whitaker, Dunlap and Jung: The US Flag at the Fullerton Museum Center is shredded, tattered... It needs to be replaced and given a dignified burial, the Fullerton Elks have such a service...Also, it is not lite at night per US Flag protocol..

12/19/2024	Sinks/Faucets		

Hello Maintenance,

Can we please get your assistance with checking the floor sink in the kitchen area at the Fullerton Community Center. Sink seems to be clogged, as water has accumulated. Please contact me or Joanna Sanchez at the time of service.

Thank you,

Alma Peralta 714.738.5365

I've attached photos for your reference regarding the gymnasium shower issues from the women's gymnasium shower.

One of our patrons mentioned that one of the men's gymnasium showers (the one connected/nearest to the women's shower side) isn't functioning properly. When the knob is turned on, the water only trickles out instead of flowing normally.

Additionally, the women's gym showers, the shower head is spraying in another direction when the shower is turned on.

Please reach out to Joanna, Alma, or I at the time of service. Thank you!

12/23/2024	Door Issue		

The door to the pool office is broken at the hinge, therefore it is not secure when closed. This is a security concern.

Agenda Report

Parks and Recreation Commission

MEETING DATE: JANUARY 13, 2025

TO: PARKS AND RECREATION COMMISSION

SUBMITTED BY: DAISY PEREZ, DEPUTY CITY MANAGER

PREPARED BY: EDGAR ROSALES, SENIOR ADMIN ANALYST

SUBJECT: UNION PACIFIC TRAIL DESIGN

SUMMARY

The Union Pacific Trail Phase Two project continues to advance, with key milestones being achieved as planned. This transformative project will deliver much-needed recreational and sustainable infrastructure, offering residents enhanced connectivity and improved quality of life. Completion is expected by late 2025, culminating in a new public space for the community to enjoy.

RECOMMENDATION

Recommend approval of final design of Union Pacific Trail Phase II design to City Council.

FISCAL IMPACT

The City was awarded a \$1.78 million to design and construct the 2nd phase of the Union Pacific Trail. Additional funding has been approved by City Council for the project from the Park Dwelling Fund.

BACKGROUND

The Union Pacific Trail Phase Two project is a key initiative to enhance recreational infrastructure and sustainability within the City of Fullerton. This project will transform a former railroad right-of-way into a multi-use trail featuring pedestrian and Class I bicycle paths. The project will also include the planting of trees and shrubs, water capture components, and various trail amenities to create an inviting, functional, and environmentally conscious public space.

DISCUSSION

The Union Pacific Trail Phase Two project is progressing steadily, with significant milestones achieved and a detailed schedule in place for completion. Following City

Council approval in January 2024, the City contracted with KTUA for landscape architect services in March 2024. Key preparatory steps, such as agronomic soil testing and geotechnical reports, were completed by August 2024. The design phase is advancing on schedule, with 30% plans completed in October 2024, 60% plans finalized in November 2024 and 90% plans finalized earlier this month. Final design approvals are anticipated by February 2025, with construction bidding and contract awards scheduled for early 2025. Construction is expected to begin in late spring or early summer 2025, subject to material availability and lead times.

Winter 2025	Ribbon Cutting/Grand Opening (tentative)
February 2026	Grant Performance Period Ends

The detailed design will deliver a high-quality and functional multi-use trail that meets the diverse needs of its users. The trail will feature separate Class I bicycle and pedestrian paths for safety and ease of use. Additionally, trail amenities such as decomposed granite paving, decorative concrete, and premium ramps will enhance accessibility and aesthetics. To ensure long-term durability, the design includes robust infrastructure such as asphaltic concrete paving and curbs, with extensive grading and preparation for a solid foundation.

Trail users will benefit from critical safety and convenience features, including:

- **Lighting:** Solar-powered lighting with energy-efficient units will provide illumination for nighttime use, promoting safety and extended usability.
- **Wayfinding and Signage:** Directional signs, trail stop signs, and RRFB signs with bollard activation will enhance navigation and pedestrian safety.

- **Crosswalks and Striping:** The inclusion of center striping, crosswalk striping, and roadway yield markings will ensure clear separation of spaces for different users.

The landscaping design incorporates over 13,000 flats of shrubs and groundcover, 176 trees, and bark mulch to create a welcoming and visually appealing environment. Sustainable water management features include a drip irrigation system, water capture elements, and soil amending for healthy vegetation growth. The addition of tree bubblers, subsurface drip systems, and solar-powered irrigation controllers ensures efficient water use while maintaining the lush green aesthetic of the trail.

Site furnishings, such as benches, removable bollards, and trash receptacles, will provide trail users with comfort and convenience. The tubular steel security fence and wooden split rail fencing will delineate the trail and enhance its safety and usability.

Stormwater and utility upgrades will further improve functionality, with drainage systems such as area drains, headwalls, and riprap ensuring proper water flow and reducing erosion risks. The integration of electrical components and irrigation systems will support the trail's sustainable design and long-term maintenance.

This comprehensive approach to design ensures the Union Pacific Trail Phase Two project will be both functional and enjoyable for users. The project aligns with the City's goals for connectivity, sustainability, and quality of life enhancement. Upon completion, the trail will serve as a vital recreational and transportation corridor, offering residents a safe, attractive, and environmentally conscious public space.
