Hello,

This is regarding the Fullerton Museum Center. The air conditioning in the upstairs office is not working again. Although we lower the thermostat, the temperature remains at 75°F—and it feels warmer than that. We are also continuing to experience issues with the temperature in the Fender Gallery. It consistently stays between 72–75°F, which is a serious concern. For the preservation of our historical artifacts, it is critical that the temperature does not exceed 70°F. While air is coming through the vents, it is not cooling the space effectively. This is especially concerning with summer approaching. Additionally, the AC in the media room is not functioning properly and is stuck at 73°F. Please address these issues as soon as possible, as prolonged exposure to higher temperatures can cause irreversible damage to our artifacts on display.

Best,

5/28/2025	Lighting - Non St. Lt.		
Hello Folks! Thank you for fixing the lights around the property! We really appreciate it! We have a production company utilizing the property whose production opens on Sunday, June 1. We need to override/shut off those lights around the front of the mansion and amphitheatre during the production. Can someone show us where the timer/switch/override is for those?			
Thanks! Adam adam@themuck.org

Hello, On December 14, 2024, we submitted a request regarding our water filtration system due to concerns about calcium buildup and the lack of any indication that it had been recently serviced or updated. No action was taken until March 26, 2025, when plumbers arrived and informed us that they had spoken with the City. According to them, the City had agreed to replace the system and handle the issue. However, as of today, May 29, 2025, the same filtration system remains in place with no updates or repairs completed. Could you please provide an update on when we can expect the system to be replaced and the issue resolved?			
I have attached a photo for your reference. Thank you in advance for your assistance.

BACKGROUND

At the May 12, 2025 Parks and Recreation Commission meeting, staff presented various options for park restroom installations, including prefabricated restrooms, self-cleaning restrooms, and elevated portable restrooms. In response to commissioner interest, staff is providing additional detail on the "Throne" elevated portable restroom system.

Throne restrooms are a smart, elevated portable restroom solution that requires no permanent infrastructure and can be deployed quickly on any flat surface. These restrooms provide key benefits, including:

- Turnkey operation: Installation, maintenance, and data tracking are managed by the vendor.
- Smart access: Users unlock the restroom via smartphone.

- Usage data: The system collects and reports data on frequency of use and cleanliness feedback.
- Flexible servicing: Cleaning frequency ranges from once to four times daily, with pricing from \$4,250 to \$8,000 monthly depending on service level.

This option is particularly suitable for high-traffic parks that currently lack permanent restroom facilities. Staff have obtained statistics from the City of Long Beach for the first month of their use of Throne Restrooms. Below are some highlights for the information received from April 15, 2025 – May 15, 2025.

- 83 % of users thing Throne is a “great” option

The Throne restroom presents a cost-effective, flexible, and community-supported solution for enhancing restroom access at Independence Park and other high-use facilities in Fullerton. Reliable, safe, and accessible restrooms are a critical component of a high-quality park system, and options like Throne help address both immediate needs and long-term goals. Based on this information, staff will be moving forward with a pilot program at Independence Park this summer. Adding the restroom will fill a void that has existed at this location for several years and will provide the opportunity to expand programming including the relocation of the Wednesday Farmers Market.

Where else in Long Beach would you like to have access to a Throne restroom?

Any other comments you want to share with the City of LB?

We need a lot of throne restrooms

I was glad to have this experience very clean bathroom way better than the public restrooms here in Long Beach. Specially because most of the bathrooms are being used by homeless people and drug addicts. I felt so much safer.

Amazing system. Liked how no app was needed. I do imagine how maintained it will be in the future. Please build more.

This was awesome

I appreciate the work you're doing to improve the city 😊

Appreciate this initiative

These are da tasting! No touch, easy, clean. All residents need this, not just the unhoused but especially the unhoused. Every human needs a place to go. If you don't provide that, you end up with people who have no choice but to do humiliating things in public. Please, more of these. A very smart solution to address an important societal need that immediately provides a solution.

Maybe 15 minutes instead of 10, but great idea. Was out of soap

It ruins a beautiful view of the Marina and the Queen.

This was a great experience 😊

I love long beach

Public bathrooms need to be cleaner and patrolled to prevent homeless encampments

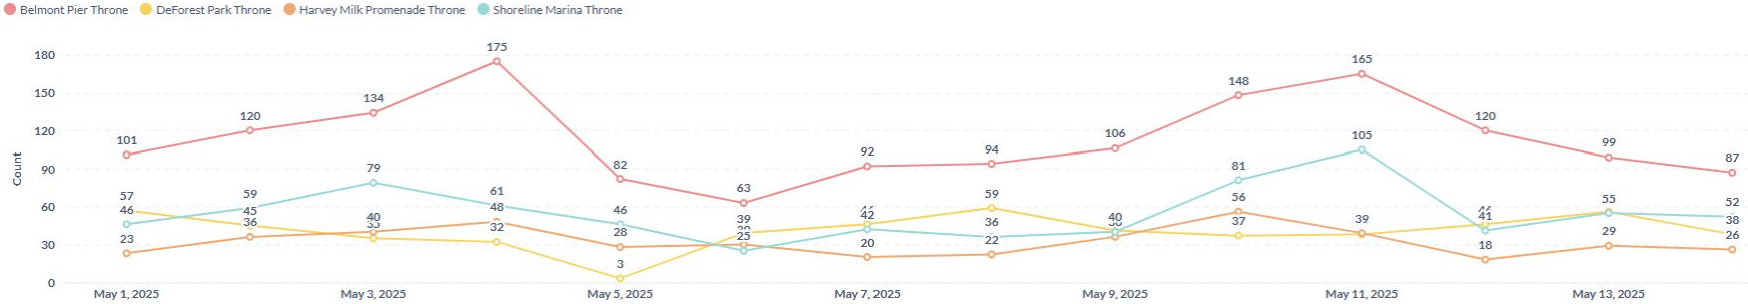

Thank you for this!
