13. **Contractor Personnel – Reference Checks:** The Contractor warrants that all persons employed to provide service under this Contract have satisfactory past work records indicating their ability to adequately perform the work under this Contract. Contractor's employees assigned to this project must meet character standards as demonstrated by background investigation and reference checks, coordinated by the agency/department issuing this Contract.
14. **Conditions Affecting Work:** The Contractor shall be responsible for taking all steps reasonably necessary to ascertain the nature and location of the work to be performed under this Contract and to know the general conditions which can affect the work or the cost thereof. Any failure by the Contractor to do so will not relieve Contractor from responsibility for successfully performing the work without additional cost to the County. The County assumes no responsibility for any understanding or representations concerning the nature, location(s) or general conditions made by any of its officers or agents prior to the execution of this Contract, unless such understanding or representations by the County are expressly stated in the Contract.
15. **Regional Cooperative Agreement:** Regional Cooperative Agreements (RCA) awarded by the County of Orange are intended to be used as cooperative agreements against which individual subordinate contracts may be executed by participating County departments and non-County public entities during the effective dates outlined herein. The RCA terms, conditions, and pricing shall be extended to all subordinate contracts issued in accordance with the RCA. Subordinate contracts shall be in full force and effect through their agreed upon termination date, unless otherwise terminated by the agency/department. County departments and non-County public entities shall issue subordinate contracts in their own names and be solely responsible for all payment requirements. Contractor shall ensure that all subordinate contracts with non-County public agencies contain an indemnification clause in which the non-County agency indemnifies and holds harmless the County of Orange from all claims, demand actions, or causes of actions of every kind arising out of, or in any way connected with the use of County issued cooperative agreements. Failure to meet this requirement shall be considered a material breach of this RCA and grounds for immediate contract termination. The cooperative entities are responsible for obtaining all certificates of insurance and bonds required. The Contractor is responsible for providing each cooperative entity a copy of the Contract upon request by the cooperative entity. The County of Orange makes no guarantee of usage by other users of this Contract.

Contractor and participating non-County entities shall ensure adherence to all applicable public project competitive bidding and public works prevailing wage statutes, as required by law, for installation work.

The Contractor shall be required to maintain a list of the cooperative entities using this Contract. The list shall report dollar volumes spent annually and shall be provided on an annual basis to the County, at the County's request.

16. **Breach of Contract:** The failure of the Contractor to comply with any of the provisions, covenants, or conditions of this Contract shall be a material breach of this Contract. In such event the County may, and in addition to any other remedies available at law, in equity, or otherwise specified in this Contract:

- 
- a. Afford the contractor written notice of the breach and ten calendar days or such shorter time that may be specified in this contract within which to cure the breach;
  - b. Discontinue payment to the contractor for and during the period in which the contractor is in breach; and
  - c. Offset against any monies billed by the contractor but yet unpaid by the County those monies disallowed pursuant to the above.
17. **Data – Title To:** All materials, documents, data or information obtained from the County data files or any County medium furnished to the Contractor in the performance of this Contract will at all times remain the property of the County. Such data or information may not be used or copied for direct or indirect use by the Contractor after completion or termination of this Contract without the express written consent of the County. All materials, documents, data or information, including copies, must be returned to the County at the end of this Contract.
18. **Default – Reprocurement Costs:** In case of Contract breach by Contractor, resulting in termination by the County, the County may procure the goods and/or services from other sources. If the cost for those goods and/or services is higher than under the terms of the existing Contract, Contractor will be responsible for paying the County the difference between the Contract cost and the price paid, and the County may deduct this cost from any unpaid balance due the Contractor. The price paid by the County shall be the prevailing market price at the time such purchase is made. This is in addition to any other remedies available under this Contract and under law.
19. **Disputes – Contract:**
- A. The parties shall deal in good faith and attempt to resolve potential disputes informally. If the dispute concerning a question of fact arising under the terms of this Contract is not disposed of in a reasonable period of time by the Contractor's Project Manager and the County's Project Manager, as specified in Article 22. "Notices," such matter shall be brought to the attention of the County Deputy Purchasing Agent by way of the following process:
    - 1. The Contractor shall submit to the agency/department assigned Deputy Purchasing Agent a written demand for a final decision regarding the disposition of any dispute between the parties arising under, related to, or involving this Contract, unless the County, on its own initiative, has already rendered such a final decision.
    - 2. The Contractor's written demand shall be fully supported by factual information, and, if such demand involves a cost adjustment to the Contract, the Contractor shall include with the demand a written statement signed by a senior official indicating that the demand is made in good faith, that the supporting data are accurate and complete, and that the amount requested accurately reflects the Contract adjustment for which the Contractor believes the County is liable.
  - B. Pending the final resolution of any dispute arising under, related to, or involving this Contract, the Contractor agrees to diligently proceed with the performance of this Contract, including the delivery of goods and/or provision of services. The Contractor's failure to diligently proceed shall be considered a material breach of this Contract.

Any final decision of the County shall be expressly identified as such, shall be in writing, and shall be signed by the County Deputy Purchasing Agent or his designee. If the County fails to render a decision within 90 days after receipt of the Contractor's demand, it shall be deemed a final decision

adverse to the Contractor's contentions. Nothing in this section shall be construed as affecting the County's right to terminate the Contract for cause or termination for convenience as stated in section K herein.

20. **Drug-Free Workplace:** The Contractor hereby certifies compliance with Government Code Section 8355 in matters relating to providing a drug-free workplace. The Contractor will:

1. Publish a statement notifying employees that unlawful manufacture, distribution, dispensation, possession, or use of a controlled substance is prohibited and specifying actions to be taken against employees for violations, as required by Government Code Section 8355(a)(1).
2. Establish a drug-free awareness program as required by Government Code Section 8355(a)(2) to inform employees about all of the following:
  - a. The dangers of drug abuse in the workplace;
  - b. The organization's policy of maintaining a drug-free workplace;
  - c. Any available counseling, rehabilitation and employee assistance programs; and
  - d. Penalties that may be imposed upon employees for drug abuse violations.
3. Provide as required by Government Code Section 8355(a)(3) that every employee who works under this Contract:
  - a. Will receive a copy of the company's drug-free policy statement; and
  - b. Will agree to abide by the terms of the company's statement as a condition of employment under this Contract.

Failure to comply with these requirements may result in suspension of payments under the Contract or termination of the Contract or both, and the Contractor may be ineligible for award of any future County contracts if the County determines that any of the following has occurred:

1. The Contractor has made false certification, or
2. The Contractor violates the certification by failing to carry out the requirements as noted above.

21. **EDD Independent Contractor Reporting Requirements:** Effective January 1, 2001, the County of Orange is required to file in accordance with subdivision (a) of Section 6041A of the Internal Revenue Code for services received from a "service provider" to whom the County pays \$600 or more or with whom the County enters into a contract for \$600 or more within a single calendar year. An independent Contractor is defined as "an individual who is not an employee of the ... government entity for California purposes and who receives compensation or executes a contract for services performed for that ... government entity either in or outside of California."

The reporting requirement does not apply to corporations, general partnerships, limited liability partnerships, and limited liability companies.

22. **Errors and Omissions:** All reports, files and other documents prepared and submitted by Contractor shall be complete and shall be carefully checked by the professional(s) identified by Contractor as project manager and key personnel attached hereto, prior to submission to the County. Contractor agrees that County review is discretionary and Contractor shall not assume that the County will discover errors and/or omissions. If the County discovers any errors or omissions prior to approving Contractor's reports, files and other written documents, the reports, files or documents will be returned to Contractor for correction. Should the County or others discover errors or omissions in the reports, files or other written documents submitted by the Contractor after County approval thereof, County approval of Contractor's reports, files or documents shall not be used as a defense by Contractor in any action between the County and Contractor, and the reports, files or documents will be returned to Contractor for correction.
23. **Equal Employment Opportunity:** The Contractor shall comply with U.S. Executive Order 11246 entitled, "Equal Employment Opportunity" as amended by Executive Order 11375 and as supplemented in Department of Labor regulations (41 CFR, Part 60) and applicable state of California regulations as may now exist or be amended in the future. ## ATTACHMENT A SCOPE OF WORK

### I. BACKGROUND

The Orange County Transportation Authority's (OCTA) Environmental Cleanup Program (ECP) provides a two percent allocation of annual gross Measure M2 (M2) revenues to improve overall water quality in Orange County from transportation-related pollution. The ECP competitive funds can be used to implement water quality improvement projects addressing pollutants originating from or conveyed through transportation systems. These funds will assist Orange County cities and the County of Orange in meeting federal Clean Water Act standards for urban runoff through the purchase and installation of recognized structural best management practices (BMPs). Third parties such as public water and wastewater agencies, environmental advocacy organizations, and homeowners associations may also nominate projects through a municipality that is willing and able to take responsibility for carrying out and maintaining the project.

### II. DESCRIPTION OF PROJECT

In concert with the M2 Grant Program, this Scope of Work is designed to assemble a panel of Contractors to achieve economies of scale on a list of fixed unit prices for the purchase and installation of equipment and devices designed to remove litter, debris, and other water quality pollutants, herein referred to as "Stormwater Treatment Devices." Selected Contractors will be part of a Master Agreement between the County of Orange and OCTA that will allow municipalities to select from a listing of Contractors to provide, supply, fabricate, construct, deliver, and install Stormwater Treatment Devices. Agencies wishing to use the Master Agreement may purchase BMPs with M2 grant monies or any other funding source.

Accordingly, the goal of this RFP is to establish a Master Agreement that achieves strategic savings that would benefit the County and OCTA to act as the purchasing and contract administrators for M2 grant-eligible entities. *Proposals that do not provide a discounted price that offer economies of scale that are more than standard bulk pricing/installation listing will not be considered.* Proposals will not be accepted solely for equipment purchases or installations. Awarded ECP entities are not obligated to utilize the selected Contractors. Rather, this process is intended to provide a mechanism for reduced rates for equipment and its installation for Orange County municipalities, including those implementing projects with M2 funding. In addition, if a local agency is a party to this Master Agreement, a separate agreement, city council resolution, or other protocol may be necessary with the selected Contractor(s). The eligible qualifications are discussed below.

Each selected Contractor will be under contract with the County of Orange's OC Public Works Department and OCTA, but will take primary direction from local agency. Contractor's will directly invoice and be paid by the local agency.

### III. ELIGIBILITY QUALIFICATIONS

Stormwater Treatment Devices must be capable of handling flows from a design storm of 0.2-inches/hour.

The hydrologic method to be used to calculate the flow associated with LID and water quality design storm flow is:

$$F_{\text{required}} = C \times I \times A$$

Where  $F_{\text{required}}$  = Flow capacity (cubic feet/sec);  $C$  = runoff coefficient (ranges from 0 to 1);  $I$  = 0.2 inches/hour; and  $A$  = tributary area (acres).

Treatment devices should also be able to operate in a hydraulic surcharge condition (defined as a condition that exceeds the design discharge) without releasing stored pollutants to the receiving water. Stormwater Treatment Devices which meet this definition and would be eligible for consideration are:

#### **A. Hydrodynamic Separation and Gross Solids Removal Devices**

Hydrodynamic separators are flow-through structures with a settling or separation unit to remove sediments and other pollutants and are widely used in stormwater treatment. No outside power source is required, because the energy of the flowing water allows the sediments to efficiently separate. Depending on the type of unit, this separation may be by means of centrifugal force or indirect filtration.

Gross Solids Removal Devices (either linear radial or inclined screen) are structural best management practices designed to remove trash, vegetative material, and other particles of relatively large, gross size from stormwater runoff.

#### **B. Catch Basin Inserts**

Catch basin inserts are designed to remove oil and grease, trash, debris, and sediment and improve the efficiency of catch basins. Some inserts are designed to drop directly into existing catch basins, while others may require retrofit construction. Several varieties of catch basin inserts exist for filtering runoff.

#### **C. Automatic Retractable Screens**

Automatic retractable screens are mounted inside a storm drain inlet and are designed to remain closed to capture debris during the dry season. During storm events, the screens retract, allowing heavy flows to enter the storm drain.

#### **D. Cartridge Filter-type Control Devices**

Cartridge filter-type controls typically consist of a series of vertical filters contained in a vault or catch basin that provide treatment through filtration and sedimentation.

#### **E. Biological Treatment Devices**

Bioretention devices include raingardens, swales, and filter strips; all use plants and substrate to detain and filter stormwater to reduce excessive runoff from roads and paved surfaces, and provide opportunities for enhancing natural landscape and biodiversity elements in the urban environment.

#### **F. In-line Trash and Debris Capture Devices (Trash Booms and Trash Nets)**

Trash booms and nets are designed to assist in the control, containment and recovery of floating trash, debris, timber, urban waste or aquatic plants. Typically built as floating structures, these devices are designed to control pollution along the surface of the water.

---

**IV. REQUIREMENTS**

- The devices shall be ready for shipment, delivery and/or installation within two months of receipt of orders.
- Warranty on parts and labor shall be for a minimum of 10 years.

**V. EQUIPMENT DESIGN AND SPECIFICATIONS REPORT**

All proposals shall include information pertaining to the proposed stormwater treatment device, including, but not limited to: product description, design, engineering, siting, operation, and maintenance. The following information should be summarized in an Equipment Design and Specification Report (Report) for each proposed device in the given order as listed below. *A submittal that does not address all aspects of the following evaluation criteria and/or cannot be readily located within the Report will be deemed incomplete. Please provide a basis for all estimated values.*

**A. Description/Design/Engineering**

- Describe how the equipment meets the intent of the OCTA Tier 1 Environmental Cleanup Program.
- A detailed description of the equipment and design elements, inclusive of sizing and geometry (include diagrams or CAD files).

- Trash capture (meeting the definition of “full capture system”) and storage capacity of the equipment (if applicable).
- Overflow or bypass flow capacity of the equipment when full of trash and overflowing (i.e., storage capacity of the equipment when the one-year, one hour storm is no longer fully filtered) (if applicable).
- Maximum overflow or bypass flow capacity of the device (i.e., 10-year storm event) (if applicable).
- Device performance effectiveness in terms of pounds of trash removed per total project cost (see section V., F.)

**C. Siting, Operation, and Maintenance**

- Description of Contractor’s installation process including consultation and review of device locations with municipal staff, traffic control during installation, and estimated time required to install each device.

- Description of the site-specific measurements and other information a municipality must provide the Contractor for determining the appropriate size and configuration of the device for that location (i.e. Eligible entities will need to determine how to select the right device for their desired location).
- A discussion of any regulatory permits that may be required for installation.
- Maintenance requirements (describe in detail how the device must be maintained and the approximate amount of time required for cleaning or maintenance. In addition, discuss whether the device has design capabilities for easy removal for cleaning or maintenance).
- Estimated life cycle costs for maintenance.
- Durability against external factors, such as street sweeping, car parking, etc.
- Availability of replacement parts and life expectancy.

- Certifications obtained from public agencies and/or Regional Water Quality Control Boards.

**VI. PROJECT MANAGEMENT, COORDINATION, AND ADMINISTRATION**

A kick-off meeting with selected Contractors and the County and OCTA shall be held to discuss the contractual terms of the Master Agreement. ## ATTACHMENT B CONTRACTORS PRICING

### A. COMPENSATION

The Respondent agrees to accept the specified compensation as set forth in the final negotiated contract as full payment for performing all services and furnishing all staffing and materials required, for any reasonably unforeseen difficulties which may arise or be encountered in the execution of the services until acceptance, for risks connected with the services, and for performance by the Respondent of all its duties and obligations hereunder. The Respondent shall only be compensated as set forth herein for work performed in accordance with the Scope of Work. **The County shall have no obligation to pay any sum in excess of the Fixed Prices and Total Contract Amount specified herein unless authorized by amendment in accordance with (see Model Contract) Articles C and P of the County Contract Terms and Conditions, which may require approval by the County Board of Supervisors.**

### B. PRICING

Contractor guarantees that pricing is based on best information from Attachment A, "Scope of Work". There are four areas for which pricing information needs to satisfy :

1. Estimated average cost of design and engineering for each type of equipment or device.
2. Estimated unit cost of equipment fabrication or cost of pre-fabricated device.
3. Estimated average cost of device installation, including labor and equipment (include separate line item for each type of device).
4. Estimated average annual life cycle cost of operation and maintenance for each type of device.

Device Type	Design and Engineering Cost	Unit Cost of Equipment Fabrication	Average Cost of Device Installation	Annual Operation and Maintenance Cost	Total Cost
CPS-Mod	\$60	\$419	\$270	\$25	\$774
GITS	\$94	\$723	\$121	\$25	\$963
ARS-CL	\$57	\$510	\$142	\$25	\$733

**\*\*\*Note: All installation is "optional work" and may not be required/utilized from the Contractor, as the County may only purchase the trash devices and have a third-party licensed contractor install them at the cost of the third party. The Public Contract Code force account limits still apply.\*\*\***

**C. PRICING INCREASES/DECREASES**

No price increases will be permitted during the first year of the Contract. The County requires documented proof of cost increases on Contracts prior to any price adjustment. A minimum of one hundred eighty (180) days advance notice in writing is required to secure such adjustment. No retroactive price adjustments will be considered. The County may enforce, adjust, negotiate, or cancel escalating price Contracts or take any other action it deems appropriate, as it sees fit. The net dollar amount of profit will remain company during the period of the Contract. Adjustments increasing the Contractor's profit will not be allowed.

**A. FIRM DISCOUNT AND PRICING STRUCTURE**

Contractor guarantees that prices quoted are equal to or less than prices quoted to any other local, State or Federal government entity for services of equal or lesser scope. Contractor agrees that no price increases shall be passed along to the County during the term of this Contract not otherwise specified and provided for within this Contract.

**D. CONTRACTOR'S EXPENSE:**

The Contractor will be responsible for all administrative costs including but not limited to photo copying, telephone communications and fax communications while on County sites during the performance of work and services under this Contract.

**B. PAYMENT TERMS – PAYMENT IN ARREARS**

Invoices are to be submitted in arrears to the user agency/department to the ship-to address, unless otherwise directed in this Contract. Contractor shall reference Contract number on invoice. Payment will be net 30 days after receipt of an invoice in a format acceptable to the County of Orange and verified and approved by the agency/department and subject to routine processing requirements. The responsibility for providing an acceptable invoice rests with the Contractor.

Billing shall cover services and/or goods not previously invoiced. The Contractor shall reimburse the County of Orange for any monies paid to the Contractor for goods or services not provided or when goods or services do not meet the Contract requirements.

Payments made by the County shall not preclude the right of the County from thereafter disputing any items or services involved or billed under this Contract and shall not be construed as acceptance of any part of the goods or services.

**C. TAXPAYER ID NUMBER**

The Contractor shall include its taxpayer ID number on all invoices submitted to the County for payment to ensure compliance with IRS requirements and to expedite payment processing.

**G. INVOICING INSTRUCTIONS:**

The Contractor shall submit invoices to County on Contractor's letterhead. Each invoice shall have a unique number and shall include the following information:

\* If the contracting party is a corporation, (2) two signatures are required: one (1) signature by the Chairman of the Board, the President or any Vice President; and one (1) signature by the Secretary, any Assistant Secretary, the Chief Financial Officer or any Assistant Treasurer. The signature of one person alone is sufficient to bind a corporation, as long as he or she holds corporate offices in each of the two categories described above. For County purposes, proof of such dual office holding will be satisfied by having the individual sign the instrument twice, each time indicating his or her office that qualifies under the above described provision. In the alternative, a single corporate signature is acceptable when accompanied by a corporate resolution demonstrating the legal authority of the signator to bind the corporation.
