Good morning,
Although apparently a maintenance visit was made, the evaporative coolers are still not taking up any water. They are working just as fans. I suspect, as stated in my initial request, that the problem is clogged filters, which have still not been replaced. We are happy to purchase and replace these ourselves if you get us pointed in the right direction. We need these coolers to work within the next day or two or we will have to purchase new ones.

This morning around 5am a person broke into the museum receiving area. They washed themselves with the hose and left human waste on the grates that are in front of the pumps. I pushed the emergency shut off to the fountain because I wasn't sure if the waste would get into the water that the kids play in.

Can you please send someone to clean the mess up? Thanks in advance.

Attached are pictures of the window leading into the office of the Rec building. The concrete has been chipped away and the window is just one good crowbar tug away from opening and shattering all the glass.

Secondly, the Red Cross Building boys restroom door is stuck shut. Not locked, just stuck shut. We have a rental Saturday and this needs to be fixed by then. Thank you!

Hello, It's Shawn Choi with Fullerton Museum Center and in one of our gender neutral bathrooms, the plunger inside the toilet snapped off. I was wondering if we could get someone over to fix it. Thank you, Shawn Choi Fullerton Museum Center

The AC worked for a week, then starting this past Saturday it's been a steady 80 degrees in our offices upstairs. All other areas are fine for now. They are only slightly elevated. We have all the units set at 70. The galleries and Gift Shop are at 72. We didn't touch or move anything on our end. The HVAC system is what a good portion of our requests have been since reopening the museum, is there anything we can do to get it replaced or see what the root problem is? I know before the pandemic it was an issue. But it seems to have gotten worse, your team seems to be coming almost every month. If you can please schedule someone to check it out again and hopefully we can find a permanent solution.

There are non-functioning locks on bathroom doors next to the lake. A posted sign says to use the door bolt to latch rest room, which I did, but the wood on the door frame is so worn that a stranger pushed the door open anyway while I was using the bathroom. Neither the door handle lock nor the bolt seem to be functioning adequately for public safety.
