Under current law, those objective planning standards include that the development proponent must certify both (1) that the development is either a public work, for purposes of specified law, or that all construction workers employed in the execution of the development will be paid at least the general prevailing rate of per diem wages for the type of work and geographic area and (2) that if the development meets certain conditions, a skilled and trained workforce, as defined, will be used to complete the development if the application is approved, as provided. Existing law exempts from any requirement to pay prevailing wages or use a skilled and trained workforce a project that includes 10 or fewer units and is not a public work. This bill would delete the requirement that a skilled and trained workforce be employed on any project subject to these provisions.	4/24/19 In committee: Hearing postponed by committee.			33. Existing law establishes a presumption that the cancer in these cases arose out of, and in the course of, employment, unless the presumption is controverted by evidence that the primary site of the cancer has been established and that the carcinogen to which the member has demonstrated exposure is not reasonably linked to the disabling cancer. This bill would make that presumption applicable to fire service personnel with exposure to active fires or health hazards resulting from firefighting operations, rather than active firefighting members.	4/29/19 Re-referred to Com. on APPR. The bill would require all allocations of revenues derived from the imposition of that property tax rate made by any county auditor-controller prior to January 1, 2020, to be deemed correct, and would prohibit any city, county, county auditor-controller, successor agency, or affected taxing entity from being subject to any claim, as specified.	4/25/19 From committee: Do pass and re-refer to Com. on APPR. with recommendation: To Consent Calendar.
