- Infrastructure and City Assets.

FISCAL IMPACT

Minimal costs associated with the installation of necessary signing and painting blue curb.

DISCUSSION

The request for a Disabled Persons Parking space was made in an effort to secure close proximity parking near the front of the home for a resident with limited mobility.

On-street parking is limited, resulting in the property owner having to park a distance from the home, which physically isn't an option.

The property is ADA compliant for ambulatory needs as is required of the request. If approved, 22 feet of curb would be painted blue and a sign posted accordingly, designating the space as Disabled Persons Parking. All existing red curb would remain as necessary for visibility and safety concerns. The property owner was also notified that the presence of blue curb is not exclusive to any one individual with a placard but to the public in general on an availability basis.

The illustration below shows the location of the proposed Disabled Persons Parking zone.

This request was considered and approved at the T&CC meeting on February 3, 2020. A copy of the T&CC Staff Report (Attachment 2) is included for City Council's reference.
